PROFILE

Full Stack Developer with 4+ years building end-to-end web products with React, Next.js, TypeScript, and Node.js/Express. Experience owning UI through REST APIs and databases (PostgreSQL/Prisma, MongoDB, SQL Server), plus ERP modules across Finance, Inventory, Merchandising, and Production. Own ecommerce product ROOTORA and volunteer full-stack work for DMF Foundation. Based in Cologne; open to hybrid/remote/EU. English C1, German B1.

CORE COMPETENCIES

Languages & Frameworks: React.js, Next.js, TypeScript, JavaScript (ES6+), Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Redux

Tools & Infrastructure: REST APIs, PostgreSQL, Prisma, MongoDB, SQL Server, Git, Docker, .NET Core APIs, Ant Design, shadcn/ui

Methods: end-to-end feature ownership, component libraries, performance optimization, Agile/Scrum, code reviews, testing & debugging

EXPERIENCE

Senior Software Engineer — Dekko Isho Group, Dhaka, Bangladesh 12/2024 – 12/2025

- Owned ERP application modules end-to-end with React.js, TypeScript, .NET Core, SQL Server, and REST APIs across Finance, Inventory, Merchandising, and Production.
- Built reusable React UI libraries for consistent design and faster feature delivery.
- Integrated and occasionally contributed to .NET Core API design and debugging with backend teams.
- Improved UI load times by ~25–30% and reduced UI bugs by ~20% through performance work and testing.
- Collaborated with analysts, UX/UI, and stakeholders to turn requirements into production features.

Software Engineer — Buyonia Bangladesh Limited, Dhaka, Bangladesh 04/2022 – 12/2024

- Shipped full-stack web features with React.js, Next.js, Node.js/Express for 2,000+ active users.
- Improved application performance by ~25% through Redux and Context API optimization.
- Built modular UI components that cut new feature development time by ~30%.
- Integrated multiple REST APIs for reliable service-to-service data flows.
- Supported ERP rollouts across five companies with Git-based PRs, Agile/Scrum, testing, and bug-fixing.

PROJECTS

ROOTORA (Next.js, React, TypeScript, Node.js, PostgreSQL, Prisma, Tailwind, shadcn/ui) shoprootora.com

- Built shop flows with Next.js App Router: catalog, filters, product detail, cart, and wishlist.
- Modeled data with PostgreSQL and Prisma; component UI with Tailwind CSS and shadcn/ui.
- Delivered responsive storefront UX with dark/light mode and SEO metadata.
- Own product ownership — live at shoprootora.com.

DMF Foundation Platform (React.js, Node.js, Express.js, MongoDB) ourdmf.com

- Built scholarship workflows: applications, results publication, and attendance tracking.
- Extended the platform with donations, investment projects, HR, and reporting dashboards.
- Integrated secure donation and financial flows for transparency and donor trust.
- Scaled usage across 30+ institutions and improved program efficiency by ~70–80%.

EDUCATION

B.Sc. Software Engineering — Daffodil International University, Dhaka, Bangladesh 04/2017 – 08/2021
